OS REGISTRY

03 APR 1987

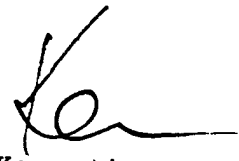

Dear Bob,

Thank you for your March 9 letter on the Agency's recently completed security survey of ACDA. I appreciate the advice and assistance provided by the team and commend them on their thoroughness and professionalism. In my two meetings with the team, I was impressed by them.

I am satisfied that, on balance, we are doing well in our security efforts. However, I recognize that we have more to do. We are in the process of reviewing and implementing the recommendations and, in those cases where we require assistance outside of ACDA, we are developing appropriate follow-up.

We will keep you apprised of our efforts as we move along.

Sincerely,

Kenneth L. Adelman
